Robert K. Ritner, The God Kothos.

ArchPF 67 (2021) pp. 138-145.

Complément à: Lincoln H. Blumell & Korshi Dosoo, Horus, Isis, and the Dark-Eyed Beauty. A Series of Magical Ostraca in the Brigham Young University Collection, ArchPF 64 (2018) pp. 247-249. - The spelling $\kappa\theta\theta\omicron\varsigma$ / $\rho\theta\theta\omicron\varsigma$ for $\alpha\gamma\alpha\theta\omicron\varsigma$ is not an erroneous "corruption" of the Greek term, but a conscious "deformation" for magico-religious reasons.
