APapyrol 34 (2022) pp. 147-162, figg.

Re-evaluates the word-list codex P. Chester Beatty Inv. 1008 (= MP3 2751; LDAB 5508; S.B. XII, 10769), arguing that PCB 1008 is best understood, not as a school text completed by a student (so ed. pr.), but is a unique example of teacher's handbook, one that was in the process of development.
