

Wolfgang Kaiser, Angebote in Form von Hypomnemata und Vertragsschluss bei der μίσθωσις.

ZSav 139 (2022) pp. 377-390.

Examines the various forms of signatures on offers for a μίσθωσις of land with regard to a conclusion of a contract. Reference is made to Peter Herrmann's thesis (1958), which says that offers in the form of hypomnemata are seen as an empty form from a certain point in time onwards.
