

364 Chariton

Fabio Vendruscolo, Postille a papiri di Caritone.

ArchPF 69 (2023) pp. 7-21, fig.

For five lacunose passages in papyri of Chariton's novel new reconstructions are proposed removing or harmonising divergences from the medieval codex unicus F, and in one case bringing out a new variant, possibly correct; two F readings confirmed by a papyrus, yet still usually emended or suspected, are defended with a different interpretation. - P. Fay. 1 (= MP3 243; LDAB 542). - P. Oxy. VII, 1019 + XLI, 2948 (= MP3 241; LDAB 541).
