Alessia Pezzella, Considerations on Some Notable Words in a Latin Account of Payments from Tebtynis.

Trends in Classics 15 (2023) pp. 55-78.

Examines some notable words of both Latin and Greek origin in a second-century Latin account from Tebtynis (ChLA V 304). In light of new data, aims to clarify the linguistic status of these words (especially those of Greek origin) and their meaning, updating and extending Adams' analysis, and to offer a more detailed view of the use of Latin and its contacts with Greek in second-century Tebtynis.
