François Gerardin, A Late Ptolemaic Order to Distribute One-Choinix Bread Loaves (P.Freib. 77).

ArchPF 70 (2024) pp. 34-47, figg.

The late Ptolemaic document P. Freib. Inv. 10b = P. Freib. 177 [provenance unknown, 23 March 83 BCE] is an order to distribute bread loaves. Fully preserved, it is of particular interest for its lexicographical novelties, such as the hitherto unattested adjective χοινικιέϊος. Discusses the origin, nature, and use of ὀλοπυρίται ἄρτοι, "loaves of unground wheat".
