Uri Yiftach, Politikoi Nomoi Again.

ZSav 141 (2024) pp. 479-487.

Studies the much-debated term politikoi nomoi ('civil laws'), as recorded in P. Gurob 2.44-45 = Sel. Pap. II ,256 = C.P.Jud. I, 19 (226 BCE, Crocodilopolis). The term is used here in the context of a diagramma, which allows the consideration in court of the politikoi nomoi - a body of law subsidiary to royal legislation, applicable whenever matter at dispute is not addressed by the latter. Argues that the term is used here for the designation of city laws of Alexandria.
