*Christian Inscriptions from Egypt and Nubia (CIEN)* is the first epigraphical bulletin to provide an annual overview of published inscriptions from Christian Egypt and Nubia, in both Greek and Coptic, as well as other languages. The bulletin roughly comprises the Late Antique and medieval periods, and covers anything from (re-)editions to notes and studies based on inscriptions. It goes beyond a mere *Literaturübersicht*, offering critical comments on any noteworthy aspect of the texts, such as context, materiality and formulae, as well as numerous corrections, new interpretations and in some cases even re-editions. The first ten bulletins, covering the years 2013 to 2022 [from 1 = *BASP* 51 (2014) pp. 199-215 to 10 = *BASP* 60 (2023) pp. 371-395], are collected together in one volume. Added are extensive indices and concordances.
