Holger Essler, Ehnas-Ersatz: Die von der Versicherungssumme erworbenen Ankäufe für die 1899 in Hamburg verbrannten Papyri aus Wilckens Grabung.

ArchPF 70 (2024) pp. 409-440.

When most of the papyri that Ulrich Wilcken had excavated at Ahnās (Heracleopolis Magna) in 1899 were destroyed by fire, the Berlin Museum decided to use the insurance money to buy more papyri in Egypt, the so-called "Ehnas-Ersatz". Editing new archive documents, traces the history of this group of papyri from the fire to their edition and partial return to Cairo. - Pp. 427-431: Der Hesiodeische Frauenkatalog.
