Egidia Occhipinti, P.Med. I.2 17 (inv. 36): An Anthology?

Aegyptus 104 (2024) pp. 19-32, figg.

New reading of P.Mil. II, 17 (= MP3 2268; LDAB 4121). A study in-depth of its content shows that the papyrus was hardly part of Timaeus' historical work.
